

# Little pain

## Fuel Fandango

i just wanna hold you  
through the night  
i just wanna squeeze you  
through the night the little pain is  
in my heart  
i just wanna hold you  
i need you by my side  
please don't leave me  
i need you by my side you're my nature  
my god is in your eyes  
please don't leave me  
i need you by my side  
that little pain  
is in my heart  
take me in your arms  
send, send me to the sun  
take me to my home  
just take me to my home...my head is on the floor  
i cannot talk  
but i can feel the sound  
strangers all round  
that little pain  
in my heart take me in your arms  
send, send me to the sun  
take me to my home  
just take me to my home...No no no, don't leave me  
take me in your arms  
send, send me to the sun  
take me to my home  
just take me to my home...
