

# Life Changes (Feat. Phil Beaudreau) (C&S)

## Casey Veggies

I found love  
and I stopped loving  
Found God  
when I stopped looking for one  
Found a life  
but can't make a livin'  
Don't wanna find the end, so I'm still in it  
Still lost, still here  
No past, don't care about looking back anyway Nothing matters anyway  
Cause I'm still lost, still here No past, don't care about looking back anyway If I'm moving on it anyway Yea,  
Yea, word Life Changes  
Ah man  
Yea  
How is anybody gon hear it if I don't record it,  
New shit i'm driving yo I pobably couldn't afford it.  
Would be trapped in a hood state of mind  
end up less rewarded  
But I took a couple chances, now life is gorgeous  
This gon change everything  
like a child,  
a funeral,  
or a wedding ring,  
But haven brings angels down,  
now watch us while we levitate  
Called the police when she needed,  
but they showed up hella late  
I just do my dougie on these hoes  
I'll be dancing in the rain,  
soaking puddles in my shoes  
Broken heart plus the rules,  
open art full of clues  
No bizarre, Rosa Parks, Martin Lurther always knew  
yeah life changes
