

# Your Doors

[Chris Palser](#)

thought I had you  
Oh, you brought a chill  
I feel so close to you  
guess you never will  
what about the times  
we stayed up all night long  
Singing in the dark  
all our favorite songs  
and now you hide from me  
you shut me out  
you turned your lights off  
and you never come out I tried to reach you  
I banged on all of your doors  
and I climb every single one of your walls  
I peeped in windows  
just a glimpse of your soul  
you pulled the shades down thought I had you  
I thought that we were friends  
now when I call you  
you don't call back again  
what about the nights they just went  
on and on and on and on  
Singing in the dark  
all our favorite songs  
and now you hide from me  
you shut me out  
you turned your lights off  
and you never come out I tried to reach you  
I banged on all of your doors  
and I climb every single one of your walls  
I peeped in windows  
just a glimpse of your soul  
you pulled the shades down thought I had you  
thought that we were friends
