

# Unison Decay

Robert Vadney

(Verse)

I know your head is full of pain,  
and you know I feel the same,  
There's nothing left for me to say,  
to you I gave it all away,  
I try to make you believe,  
but you're too afraid to see,  
I try to make you stay,  
I'll never hurt you anyway,  
I try every thing I can,  
except for what I'm best at,  
So maybe if I sing it to you,  
it'll open your eyes, cause I love you,  
I showed you everything I am,  
but you still don't understand,  
You mean the whole world to me,  
without you I can not be,  
I shared my dark past with you,  
I'm nothing but an open book,  
I think you feel it too,  
this thing between me and you..(Chorus)  
Before I make my final run,  
I wanna stay with you, I'm made for you,  
Before I decide to grab my gun,  
I wanna stay with you, decay with you..Decay with you.. (x3)
