Moments

Andre Jay

We count all our moments as if they are diamonds
We count all of these moments as if they are diamonds
We count all of our moments as if they are diamonds
We count all of these moments as if they are diamonds

I am all i can be
I am all i can be
loving moments like these
living for moments like these

(moments like these, moments like these...)

Living for moments like these

Hands up to the skies, arise
Hands up to the stars tonight
Hands up to the skies, arise
Hands up to the stars tonight
Hands up to the skies, arise
Hands up to the stars tonight
Hands up to the skies, arise
Hands up to the stars tonight

Hands up to the skies, arise
Hands up to the stars tonight

We count all our moments as if they are diamonds
We count all of these moments as if they are diamonds
We count all of our moments as if they are diamonds
We count all of these moments as if they are diamonds

I am all i can be
I am all i can be
loving moments like these
living for moments like these
