

Hat Full of Stars

[Cyndi Lauper](#)

I was foldin' up your letters, unpacking winter clothes
Searchin' for my hat, I thought I'd left it by the door
So I tore around the room like a bird without a head
I saw your picture wavin' back at me from underneath the bed
From a long, long time ago When all I had was a hat full of stars
The one I'll always treasure, the one that you wore
You loved the look but you never looked inside
You would have seen me there, you could've seen far
You should've seen the magic in my hat full of stars I'm tryin' to live in the present but I keep tripping on the
past
Findin' out reality, well clarity comes in dribs and drabs
No we never had the time for everything we had
So it felt like we had nothing, that's what makes this hat so sad
It was a long, long time ago When all we had was a hat full of stars
The one I'll always treasure, the one that you wore
You loved the look but you never looked inside
You would have seen us there, you could've seen far
You should've seen the magic in my hat full of stars
In my hat full of stars Now whenever I'm alone and I think I might forget
I wear my lucky hat just like a crown up on my head 'Cause all I had was a hat full of stars
The one I'll always treasure, the one that you wore
You loved the look but you didn't look inside
If you could see me now, you would've seen far
You should've seen the magic in my hat full of stars
In my hat full of stars, in my hat full of stars
In my hat full of stars
