

Drunk In The Club

Bei Maejor

We're all, drunk in the club
me and my homies, so tore up
Baby take a shot of patron
and mabye i can take you home
You've been working all, all day long
and i know this'll get you in your zone
and i hope everybody in this spot is tipsy
cause i sure drink a lot
and i can't find the damn keys to my drop,
but it's all good though, it don't even matter
cause i don't wanna leave (noooo)
cause she keep dancing on me (oooh)
so i think i'm gonna head back to the bar
so tell me what you want to drink
We're gone until
We're all, drunk in the club
me and my homies, so tore up
We're all, drunk in the club
Go and leave without me, so tore up
Girl theres no place better to be
than off in the club drunk with me
Take another shot, drop, and bend that booty over
hard to keep composure, when you make it go
to the top, the top, i need another.
Uhh, i'll be right back just to watch
and i hope everybody in this spot is tipsy
cause i sure drink a lot
and i can't find the damn keys to my drop,
but it's all good though, it don't even matter
cause i don't wanna leave (noooo)
cause she keep dancing on me (oooh)
so i think i'm gonna head back to the bar
so tell me what you want to drink
We're gone until
We're all, drunk in the club
me and my homies, so tore up
We're all, drunk in the club
Go and leave without me, so tore up
Girl theres no place better to be

than off in the club drunk with me
If this is your favorite song,
let me know say oh (oh, oh)
If imma get to take you home,
let me know say oh (oh, oh)
If you got a buzz or if your messed up,
let me hear ya say oh (oh, oh)
If your gonna stop drinking after tonight,
let me hear ya say oh (oh, oh)
We're all, drunk in the club
me and my homies, so tore up
We're all, drunk in the club
Go and leave without me, so tore up
Girl theres no place better to be
than off in the club drunk with me
