

# Black Sunrise

**Kreator**

When nothing's left for us to say  
Substance leads me through the day  
All the green has turned to gray  
Like shadows fall from those who died  
Black Sunrise  
Darkened the Earth  
For Jesus lives in every shot  
When I'm there I'll talk to God  
Now I can see things you cannot  
Like mirrors in eternity  
Black Sunrise  
Darkened the Earth  
Black Sunrise  
Over the Earth
