Without Your Love

Roger Daltrey

You can show me the way, give me a sunny day
But what does it mean without your love?And if I could travel far, if I could touch the stars
Where would I be without your love?Whenever I get to feel, down and out
I think about what you said and then I give upIf I could fly away, if I could sail today
Where would I go without your love?You can show me the way and give me a sunny day
But what does it mean without your love?And if I could travel far, if I could touch the stars
Where would I be without your love?And if I ever wonder away to far
You come looking for me with open armsI could forget my home, feel like a rolling stone
But who would I be without your love?And what does it mean without your love?
Where would I be?
