In This Light And On This Evening

Editors

I swear to God
I heard the earth inhale
Moments before
It spat its rain down on me
I swear to God
In this light and on this evening
London's become
The most beautiful thing I've seen
I swear to God
I heard the earth inhale
Moments before
It spat its rain down on me

I swear to God
In this light and on this evening
London's become
The most beautiful thing I've seen
I swear to God
I heard the earth inhale
Moments before
It spat its rain down on me
I swear to God
In this light and on this evening
London's become
The most beautiful thing I've seen
