Last Chance

Great White

Woke up to catch the early train destination anywhere
Found myself walking down the side of road still your memory won't disappear
I could never run far enough away from you to free you from my heart
And even if I walked a million miles I could ever forget your smile
You've been getting what you want forever with nothing but that look in your eyes
The only time you found for me babe is when it's time for you to find a place to hideNow it's the last chance maybe one more time will do
Yeah it's the last chance and all I want to do is be with you
Feeling like the sun at the end of the day overtaken by the night
I'm hoping we can find our peace of mind in between the dark and the light
Been taking what you want from the ones that you love you took it all yeah that's true
But even in the light of a thousand moons I've never seen eyes so blueBut it's the last chance maybe one more time will do
Yeah it's the last chance
Now it's the last chance and all I want to do is be with you
I remember those summer nights lying underneath the stars
Living only to be holding you closer to closer to my heart
Well you've been getting what you want forever with nothing but that look in your eyesBut now there's no place left for you to run and hide
It's the last chance maybe one more time will do
Yeah it's the last chance
Baby it's the last chance maybe one more time will do
Don't tell me it's the last dance 'cause all I want to do is be with you
