Streetlights

Rocky Votolato

We can go and walk in the darkness
Get relief at each
Streetlight
I don't know how much it would cost usProbably more than I've spent in my whole life
On
These silly ideas that waste more time than I had to
Loose when I woke up this morningSeems like I've
Got so much more to loose now than I ever had before
Little beanie-bean with the calculator keys
Can he addIt all up, make it all make sense to me
I've got no idea
How much more time
I've got left if I can't get my mindRight
The simplest little melody has got me all tangled up
In knots
We can go and walk in the morningWe don't
Need streetlights just a new start
Not paralyzed by
Appearances with big ideas and just way to smartTo walk around on the surface when there's an ocean
Just beneath it's blue-green smile
All the while nothing
Stopping me from jumping in and sinking fastI'll sing
You to sleep first
