My Brain

Morphine

My whole brain was out of tune
Whole brain was out of tune
I don't know how to tune a brain, do you?Went into a brain shop
They said, they'll have to rebuild the whole head
I said, "Well, do what you got to do"When I got my brain back, didn't work right
Didn't have as many good ideas
Haven't really had a good idea since I got it fixed
