

Sing Little Sister

Stereophonics

I wanna feel you next to me
I wanna be cheek to cheek You got to sing little sister
(So come on next to me)
You got to dance little sister
(So come on next to me)
You got to sing little sister
(So come on next to me)
You got to scream
Yeah I feel your breathe right next to me
You're all I need, cheek to cheek You got to sing little sister
(So come on next to me)
You got to dance little sister
(So come on next to me)
You got to sing little sister
(So come on next to me)
You got to scream Sing little sister
It's you, it's me, it's all I see
It's all I need
yeah yeah yeah yeah You got to sing little sister
(So come on next to me)
You got to dance little sister
(So come on next to me)
You got to sing little sister
(So come on next to me)
You got to scream
(Come on next to me) Yes you're my sweet little sister
I remember how ya kissed me
Come on next to me little sister
Next to me
How could anyone resist ya?
I never knew this existed!
Since you been gone how I missed ya
You're next to me
How could anyone resist ya?
