

All In One Day

Ultravox

Strange how the change came all in a day
Counting down and counting down
And waiting for the minute
We could touch a world
Where every heart had love to offer
Heart-felt passion building around
Feel the love, feel the love
Sharing the strain
From where apathy reigns
For a dying world
All in one day
All in one day
When the hands reached out
Across an ocean
Everywhere
All in one day
All in one day
When the people came
And stood together
Everywhere
All in one day
All in one day
When the hands reached out
Across an ocean
Everywhere
All in one day
All in one day
When the people came
And stood together
Everywhere
Everywhere
