

Butt Naked

Akinyele

I got a lady that's with me from Astoria Projects

Y'all must be crazy

Alright, fuck it, I'm ready

Come on

(Come on) Looking back in time

Through the corners of my mind

I see you standing there

(Standing there) Baby, how much I miss you

How much I want to kiss you

Run my fingers through your hair

(Yeah, yeah) Let's get butt naked and fuck

(What the hell y'all wanna do?)

Forget the party, let's have a orgy

(What the hell y'all wanna do?)

(What the hell y'all wanna do?) I fiend to hear the fly lady singin' my shit

My dream's like Martin Luther to be the King of this shit

Makin' g's and parlay, plus goin' on vacations

Overseas, like them dudes who play for the CBA You can catch I on the streets of N.Y.

On some caterpillar shit, dressin' butter, lookin' fly

Money bulgin' out my pocket, 'cause it just can't fit

Movin' like outfielders, 'cause I'm carryin' knits Even with suits on, or boots on

Gees give me the pee for free like a Luke song

Akafella drop dead, holdin' dough up in my paws

While y'all make a little bit of bread like croutons

It's on Let's get butt naked and fuck

(What the hell y'all wanna do?)

Yo, forget the party, let's have a orgy

(What the hell y'all wanna do?) All the ladies sing along, sing We don't have to get butt naked

(Just take it off, just take it off)

But if you wake it, I'ma let you taste it

(Just take it off, just take it off)

We'll never have to get butt naked

(Just take it off, just take it off)

But if you wake it, I'ma let you taste it So what, so what, so what's the scenario? As I combine all of my love in
you girls

Heel up, wheel up, gobble my nuts like squirrels

Powerful impact, boom, in the pussy

Grabbin', screamin', she starts to push me

But I just kept on lovin' All in a sudden I started comin'

Oh my gosh, oh my gosh
This girl was hairy like that man Sasquash
Ugh, ugh, ugh, that's all that we said
Man, ugh, pardon me, ugh, back on the bed As I turned her over, I said, "I beg your pardon"
Tried to stick it in her butt, the girl kept on fartin'
Pfrr-pf-pf-pfrr - like the human beatbox
Pumpin' that ass up just like Reeboks As I turned her over, I said, "I beg your pardon"
Try to put it in her mouth, but the girl kept on maulin'
Rrraw, rrraw, like Captain Caveman
My dick on her breast, and her chest just caved in Let's get butt naked and fuck
(What the hell y'all wanna do?)
Yo, forget the party, let's have a orgy
(What the hell y'all wanna do?) We don't have to get butt naked
(Just take it off, just take it off)
But if you wake it, I'ma let you taste it
(Just take it off, just take it off)
We'll never have to get butt naked
(Just take it off, just take it off)
But if you wake it, I'ma let you taste it Let's get butt naked and fuck
(What the hell y'all wanna do?)
Yo, forget the party, let's have a orgy
(What the hell y'all wanna do?)
