Freeway

Porno For Pyros

Ain't been twelve a couple of hours, I'm on the freeway
Rain's so hard the sky's one color, wettest coldest gray
Then she takes a look at me, I tell her it's okayDriving around with her
She's taking trips on me
I'm taking trips on herLeft the sunset back in Venice, I was on the freeway
Say you love me or I'll kill us but you won't say it
Reach across the seat and push the bucket back all the wayDriving around with her
She's taking trips on me
I'm taking trips on herI fell in love with her
I just don't mention it
To fall in love this much
It's very dangerousLeft the sunset back in Venice, I was on the freeway
Say you love me or I'll kill us but you won't say it
Reach across the seat, push the bucket back all the wayDriving around with her
Taking trips on me
I'm taking trips on herI fell in love with her
I just don't mention it
Just to fall in love this much
It's very dangerousShe's very dangerous
It's very dangerous
It's very dangerous
It's very dangerous
It's very dangerous
