Please Wait For Me

Poco

Just down the road, some sixty miles away
There's smoke in the sky, she's going down in flamesChorus:
Please wait for me, please wait for me
Time will fly like a cannonball, my darlin' you will seeTake all of my love and let it keep you warm
I shall return when we settle the score(chorus)Please wait for meOh I've waited so long, time has yet to prove who was right,
who was wrong
I have to justify all of my fears, down a broken road of tears
I love you, remember I need you, please wait for me(Solo)Just down the road, some sixty miles away
There's smoke in the sky, oh, she's going down in flames(chorus)Please, please wait for me, please wait for me
I'm goin' down the on stair, oh, but a heart with my head low
Please wait for me, my darlin' wait for me, please...
(to fade)
