Living all alone do I need security, no!  
I got 20 locks upon my doors  
Do they give me guarantees, no! I bought a gun now !  
I have a gun now !  
I wear a gun now !  
And I always keep it loaded What's going on I hold my breath  
To hear the noise, yeah !  
My heart is beating in my throat  
Did I heard a voice, no! I bought a gun now !  
I have a gun now !  
I wear a gun now !  
And I always keep it loaded I'm living with a growing fear  
I'm aiming at every single noise I hear  
My dog's going crazy  
But I'm glad that he's around  
Even though we can't communicate  
We both listen for a sound My dog's going crazy  
But I'm glad that he's around  
Even though we can't communicate  
We both listen for a sound Do I have the door shut, my room, my windows locked  
From the moment I see a stranger  
On my property I will blow him away  
From the moment I find someone in my house I won't hesitate From the moment I hear someone  
From the moment I see someone  
From the moment I'll shoot someone  
And I'll do it anyway
