Party Time

Run Dmc

It's party time and we've come here to party
Get up and move your body, 'cause it's party time
It's party time and we've come here to party
Get up and move your body, 'cause it's party time
Come inside, the time is fine and I'm
Really ready to drop a heavy bass line
On the crowd that's loud and proud the rhyme
Is mine and the jam of party time
We're well equipped to flip and trip you out
I never slip but I rip the jam, no doubt
So grab a girl until then I know you wanna play
The funky jam, I never quit until the break of day
Here we go on a Afrolistic journey
Here come the jam but don't forget to bring your turney
To make sure the beat is upheld
The beat is raw and Run's banged it well
To make it take you to your destination
It's just the jam that slam across the nation
I gotta rock, you know I gotta good rhyme
So grab a girl and listen to the good times
Now sweat till you're wet and get done
And I'll bet you get some
Heat to release the piece to have fun
So just grab a girl 'cause it's party time
It's party time and we've come here to party
Get up and move your body, 'cause it's party time
It's party time and we've come here to party
Get up and move your body, 'cause it's party time
Cool breeze, wind blowin' the leaves
I'm at ease, can you feel the funky sensation?
I might take a vacation
On the Seven Seasons
Reasons to be cheerful, sun shinin', run rhymin'
I'm right behind him
Jay, you know where to find him
Shinin' like a diamond, if I'm lyin', I'm dyin'
Girls, drive me crazy
So fine, goin' out of my mind
I keep em goin', they sayin', I've got the rhyme

Ooze, cruise, gonna take a cruise
Jing, a, ling, a, ling, a, ling, I'm never singin' the blues
Afros, studios, doin' shows
Four O's, I suppose, no one knows
Who's rockin' the hoes, tell me that
You gotta be funky
It's party time and we've come here to party
Get up and move your body, 'cause it's party time
It's party time and we've come here to party
Get up and move your body, 'cause it's party time
Now let your body be free and yeah, go, you know
Never slow the flow till it's time to go
'Cause that ain't the way you play the crowd
You gotta mingle, single girls allowed
So round 'em up, get a cutie in the spot
Look at the booty, do me, time to rock
And make all the girls give up the play
Get on the floor and make your day
So you're illin', still it's four o'clock
You won't leave till you see 'em close the spot
You gotta stay till they play the last song
Till the night gives light to the early morn'
Check the place and the taste of the bass is on the case
A negative thought that you brought just erased
Put away the nine and keep in mind
That the jam'll slam when it's party time
It's party time and we've come here to party
Get up and move your body, 'cause it's party time
It's party time and we've come here to party
Get up and move your body, 'cause it's party time
Party time, it's, it's party time, it's, it's party time
It's, it's party time, it's, it's party time, it's, it's party time
It's, it's party time, it's, it's party time
It's party time and we've come here to party
Get up and move your body, 'cause it's party time
It's party time and we've come here to party
Get up and move your body, 'cause it's party time
