

# Love

[Roger Creager](#)

Love ain't what this song's about  
Candlelight ain't what I'm in the mood for now  
I don't need a metaphor to help me get this out  
Love ain't what this song's about It's about beer and whiskey and drinkin  
It's about playin the fool and actin without thinkin  
It's about runnin with your buddies you don't give a damn  
What in the world happens to you man  
Oh love ain't what this song's about Cryin ain't what you're gonna hear  
You won't have any salty tears drownin in your beer  
If you're feelin down then friend you'd better just steer clear  
Cryin ain't what you're gonna hear It's about wine and women and song  
It's about doin one thing and make sure you do it wrong  
It's about givin in to your deepest desire  
Settin the whole damn world on fire  
Cryin ain't what you're gonna hear Love ain't what this song's about  
Candlelight ain't what I'm in the mood for now  
I don't need a metaphor to help me get this out  
Love ain't what this song's about It's about beer and whiskey and drinkin  
It's about playin the fool and actin without thinkin  
It's about runnin with your buddies you don't give a damn  
What in the world happens to you man  
Oh love ain't what this song's about Love ain't what this song's about  
The world's got you trapped and friend there's no way out  
Just give in to your deepest desires  
Set the whole damn world on fire  
Love ain't what this song's about
