

# If You Were Mine

## The Happy Bullets

I lay my weapons down  
Won't fight no more  
Try to get you by my side  
Though I have been in love before  
They could never take my clouds away  
Babe, if you were mine  
I won't hesitate at all  
You just let me know  
I'll be the one to catch your fall  
Anything you need  
Don't give me away  
You make me so confused  
The one I love loves someone else  
Don't stop the music, it feels good  
It keeps my mind off me missing you  
Keep the rain away  
There is nothing for me here  
Without you by my side  
Cause babe if you were mine  
I won't hesitate at all  
You just let me know  
I'll be the one to catch your fall

Anything you need  
Don't give me away  
You make me so confused  
The one I love loves someone else  
Baby what's it gonna be?  
Is it gonna be her or me?  
Tell me what I have to do  
Cause I know that I'm good for you  
And babe if you were mine  
I won't hesitate at all  
You just let me know  
I'll be the one to catch your fall  
Anything you need  
Don't give me away  
You make me so confused  
The one I love loves someone else

Babe, if you were mine  
If you were mine  
Babe, if you were mine  
Babe, if you were mine  
If you were mine
