Angelina

Alex Hepburn

Angelina have you seen her
First bench left of the grove
You could be her Angelina
It won't make it better though
She don't mind she don't mind
You're staring but she's looking right through you
Close your eyes step outside
Maybe there's a better viewOn the other side
We're all killing time
When it all leads to Rome
Don't pretend you know what lies
Behind those eyesCause you've seen her seen her seen her
Angelina oh no
You could be her be her be her
Angelina oh noAngelina in the street light
You never seem to find your way home
Angelina why did we leave her
I know she had further to go
And I don't mind don't mind
You're staring but she's looking right through you
Close your eyes step outside
Maybe there's a better viewOn the other side
We're all killing time
When it all leads to Rome
Don't pretend you know what lies
Behind those eyesCause you've seen her seen her seen her
Angelina oh no
You could be her be her be her
Angelina oh noIt's a lonely road
But it's all we know
It's a long way home
But it's all we knowOn the other side
We're all killing time
When it all leads to Rome
Don't pretend you know what lies
Behind those eyesAngelina Angelina Angelina
Angelina Angelina AngelinaNow you seen her Angelina oh no
You could be her Angelina oh noAngelina in the street light
You never seem to find your way home
