Just a Gift

Keith Richards

Just how I resist a kiss that don't exist
It's behind me
You're just like shooting stars hanging round in bars
Well it bores meIf you find yourself in need and need a friend to call
Well you know where I live
And I'll open up that doorWhatever they may say, there's nothing that can stay behind me
'Cause this just a gift and you give me a lift
Come on, surprise me
If you want and feel a need to call
You know my name
My address hasn't changed at all and I'm still the sameThat's all right, that's all aright
That's all right with meNothing's what it seems
Maybe just a dream
If you should find me
'Cause I'm hanging around in bars with a lot of shooting stars
And they bore meIf you find that you may need a friend
You know who to call
If you want I'll meet yo down the stairs and open up the door
'Cause it's all right, that's all right
That's all right, it's all right
That's all right, it's all right
It's all right with meIt's all right babeThat's all right
