

Mad Man Blues

Dr. Feelgood

I go home at night about half past four
All that knocking on my door I got the mad man blues
I got the mad man blues
I got the mad man blues
Man don't you know, don't you know I love these women, gonna treat them right
Ain't gonna fuss and ain't gonna fight I got the mad man blues
I got the mad man blues
I got the mad man blues
Man don't you know, don't you know I got the mad man blues
I got the mad man blues
I got the mad man blues
Man don't you know, don't you know You beg me now baby and not before
I'm gonna come round and kick your door I got the mad man blues
I got the mad man blues
I got the mad man blues
Man don't you know, don't you know I don't wanna fuss, I don't wanna fight
Ain't gonna do nothing but treat you right I got the mad man blues
I got the mad man blues
I got the mad man blues
Man don't you know, don't you know I got the mad man blues
I got the mad man blues
I got the mad man blues
Man don't you know, don't you know I got the mad man blues
I got the mad man blues
I got the mad man blues
Man don't you know, don't you know
