Storytelling

Montevideo

Well you say, "It's not goin' to work out"
Ahh why do you, why do you tell me now?
Is there a difference in anything you've said and done?
Or is it just the way we've been pretending?
I'm leavin', I'm leavin'
Do me a favor don't even think of me now
Just when you thought this was over
It had only just begun
Just when you thought this is over
It'd only just begun
Well I'm not goin' to let this tear me apart
You see it's not my only reason
"He's not my only reason", she said
Well your a weakness to me
Well you should have sent me a note, wrote me a letter
I'm leavin', I'm leavin'
Do me a favor, don't even think of me now
Just when you thought this was over
It had only just begun

Just when you thought this is over
It'd only just begun
I wish it was how we'd planned
Well everythin' will work out
I wish it was how we'd planned
Well everythin' will work out
You said "I hated you" if only that were true
I should have said that, "We'd be happy now"
You said "I hated you", if only that were true
I should have said that "We'd be happy now", yea
I should have said that "We'd be happy now", ohh
I should have said that "We'd be happy now", ohh
I wish it was, how we'd planned
I should have said that "We'd be happy now", ohh
I wish it was, how we'd planned
I should have said that "We'd be happy now", ohh
I wish it was
