Idler

Heatmiser

Idler
He's in the car
But he won't start
Until you're gone upstairs
And driving past
He'll move his hat
To block outthe glare
He'll pull up to open the door
Independence day
Yeah but he won't come out before
Indenpendence day
So go back inside
Upstairs and hide
He'll probably talk to himself about you
Til eyes are red
And it's allsaid
And then he'll just drive without you
He'll pull up to open the door
Independence day
Yeah but he won't come out before
Independence day
Independence day
