

# Salvation: Suicide

## Angra

Wishing to be dead when hope is gone  
Depreciating life when the days are looking bad  
Sick of being alive when everyone is vain  
Lost your hopes, and now you fight against depression  
Cause life's hard for everyone just look all around you  
So why squander all your power on self-destruction?  
Too proud to make amends  
Your faith, it all depends - hold on tight...  
Too scared to be alive ?  
Salvation: suicide, calling me!  
A long way to hell!  
My spoiled paradise has met this dead end  
Cause i live my life all my own with pride  
Too proud to make amends  
Your faith, it all depends - hold on tight...  
Too scared to be alive ?  
Salvation: suicide, haunting me!  
Get out of my way  
Get out of my way  
On my way to hell!
