

# Any Other Way

## Bahamas

I love you, baby, and I want to know  
If the little baby that's inside of you grows  
Months will pass by and when you start to show  
That's when I'll be jumping for joy  
Oh, that's when I'll be jumping for joy I'm so happy that you're mine, all mine  
I'll get your loving in the evening time  
I know you think it's trouble  
And I hate to burst your bubble now I love you, baby, and I've just gotta say  
If the little baby that's inside of you stays  
Years will pass by and when we're both old and gray  
That's when I'll be jumping for joy Oh, that's when I'll be jumping for joy  
Oh, that's when I'll be jumping  
Fist in the air, pumping for joy  
I wouldn't have it any other way
