Step Up

Mapei

If I said it you know I mean it
Make it happen 'cause I foreseen it
When you gon' step up?
When you gon' step up?
When we in the club you know we lean it
You made a mess and I ain't cleaning it
You always punch strong
You always punch strong
When you come, we just leave
Out of the rain with jealousy
When you gon' live it up?
When you gon' live it up?
If I had love for you
Know that me is that you're always been true
Always one love, one love one loveIf I said it you know I mean it
Make it happen 'cause I foreseen it
When you gon' step up?
When you gon' step up?I don't care who you know,
You don't know me, I cannot be your folk
You're always in the club, you're always in the club
Excuse you follow them, like in trance
Follow them like everyone else
You play dress up, I really dress up
You ain't an MC you ain't no singer
You & your company could get the finger
When you gon' give up?
When you gon' give up?If I said it you know I mean it
Make it happen 'cause I foreseen it
When you gon' step up?
When you gon' step up?
