

# How Do You Feel (About Foolin' Around)

**Kris Kristofferson**

So many people got so many lines  
They've all been tried and it's true  
They've all got so many reasons for changin' your mind  
And there ain't none of 'em new But there's just so little distance between me and you  
I think we're two of a kind  
We won't do nothing you don't wanna do  
And I won't tell you no lies So tell me how do you feel about foolin' around  
Down from your head to your toes  
Ain't nothin' realer than right here and now  
If that's as far as it goes And it goes You'll never miss nothing we've never known  
You'll never know till you try  
Hey we can take it or leave it alone  
But we got so little time So tell me how do you feel about foolin' around  
Down from your head to your toes  
Ain't nothin' realer than right here and now  
If that's as far as it goes
