

# For the Good

[Scott Harris](#)

For The Good "Sittin' alone I was all in shock  
Not quite ready for the bomb to drop  
The news came quick - I got the script  
For the good  
What you say ain't always what you mean  
Where you go ain't always what you dream  
When your plans get changed, flip, rearranged  
For the good For the good  
For the good Success it wants to be defined  
Play by the rules and walk the line  
I'm rich I'm poor I can't keep score  
For the good  
A number one song would make me smile  
But I don't have one and I still smile  
There's a plan journeyman  
For the good For the good  
For the good I try to hold back the fear  
When you get me out of my comfort zone  
I look back in the past  
And see the plan was making me grow  
Hold back the fear  
When you get me out of my comfort zone  
I look back in the past  
And see the plan was making me grow For the good  
For the good  
For the good  
For the good
