

Don't Turn Away

Face to Face

God knows I've tried
I've waited in spite of myself
There's nothing to hide
Well, I need you like no one else I'm sick of trying to figure out
Where I went wrong
I can't believe these words you say Don't you turn away from me
I can't say another word I haven't said before
Don't you turn away from me
Don't ask for my apologies I haven't anymore, heh God knows I'm tired
Of lies and denials from you, you
Well, it's down to the wire
I've given myself and that's all I can do I'm sick of trying to figure out
Where I went wrong
I can't believe these words you say Don't you turn away from me
I can't say another word I haven't said before
Don't you turn away from me
Don't ask for my apologies, I haven't anymore
So don't go You see me untrained
What you've done? You walked away
Touched our hand Well, I'm sick of trying to figure out
Where I went wrong
I can't believe these words you say Don't you turn away from me
I can't say another word I haven't said before
Don't you turn away from me
Don't ask for my apologies, I haven't anymore Don't you turn away from me
Well, I can't say another word
Another word I haven't said before
Don't you turn away from me
Don't ask for my apologies, I haven't anymore
