

Poisoned Love

Overdrive Orchestra

Poisoned love burning through my veins
Public suicide for sale, or so they say
Hit the lights boy, take it off girl
Pay the piper for you're far too gone to care
Don't they see what they've become?
Twisted, turning inside out
But I won't let them change me
I've seen it happen all before
Skin on skin, the pleasure's worth the pain
The price to pay is worth the cost, or so they say
Take the hit boy, take it off girl
A life of solitude is all you'll ever know
Don't they see what they've become?
Twisted, turning inside out
But I won't let them change me
I've seen it happen all before
