Anything Is Possible

Christine McVie

Talk to me
And let me know
If this feeling
Could ever growYou could take me out
You could lay me down
But don't get serious
Let's just play aroundIt's improbable
But if you talk nice to me baby
Anything is possible
Anything is possibleWell don't you know
Deep down inside
This feeling grows
There's nowhere to hideYou could take me out
You could lay me down
But don't get serious
Let's just play aroundIt's improbable
But if you talk nice to me baby
Anything is possible
Anything is possibleIt's improbable
But if you talk nice to me baby
Anything is possible
It's improbable
But if you talk nice to me baby
Well anything is possible
Yes, Everything is possible
