Perpetual Infinity

Obscura

In vein endeavor, a toroid, nacreous and bright
A triptych trinity of grace and height
Perceived and obsolete, merge into decay
Defeated, primordial grandeurInto the void - Illuminate, elucidate, enlighten once bliss
Into the light - Occult, enwomb, disguise this abyssOrbital ubiquity, blistering shining surface
A freedom of faith, conscience and creed
Spangled with stars, perished inanity
Vanished, dissolving polarity
Beyond all matter and moral
Within perpetual infinity
This cosmic body, a transcendent reality
This absolute unity, a multitude of formsA human shell, scattered in eternal silence
A perennial stream of recurring thoughts
Trapped forever, as stellar ion cluster
Enchained, in idle captured stateTime - An Aeon of strain
Time - A sinuous deformityThis cosmic body, a transcendent reality
This absolute unity, a multitude of forms
Beyond all matter and moral
Within perpetual infinity
Unique universal spirits
As vivid and pure
