

Tars (feat. Kip Thorne)

[Steve Aoki](#)

This isn't the end of neon future, it's just the beginning
The beginning of our shared future, of humanity's future
This century, to Mars, Europa and Titan
Three centuries hence beyond Pluto
To proxigious entirii, towsetty and Liza 832
Three millennia hence beyond our galaxy
To andromida and M82
And a hundred millennia hence beyond our universe
Our neon future
