

# A Song for You

Tommy Marz

Filling the days up with our lives from working all the time  
But you and me we've got it made  
Hearing your voice makes my heart sing and on top of everything  
You and me we've got it made I'm feeling good tonight  
I'm feeling like nothings gonna stop this feeling of my heart so alive  
From every time you come around with that look in your eyes Let me tell you about this girl  
She really is something and even though my words wont do her justice  
Just close your eyes and if you can  
Really try to imagine because me alone without her equates to almost nothing So I'm feeling good tonight  
I'm feeling like nothings gonna stop this feeling of my heart so alive  
From every time you come around with that look in your eyes
