

With My Eyes Closed

The Raveonettes

I close my eyes
To hurt you, to live you
I never told you
That I could stay It was never meant to be
For me Everyone surely will tell you
That I will need you
But I don't believe you 'Cause I've never had it
The way I'm supposed to Believe me when I say It was never meant to be
For me Everyone surely will tell you
That I will need you
But I don't believe you I close my eyes
To hurt you, to live you
I've never told you
That I could stay It was never meant to be
For me
