

# Change

## Ayo

Your talk is cheap sad that you don't know  
You're full of greed everybody knows  
You say you say you say pray you say God is great  
But then you go and fight and kill and take away what god gave  
You're a murderer  
You can't cover-up what you are 'cause everybody knows  
We can make a change  
We can make a change today  
Just lift up your voice and say  
We can change change change change  
We can make a change  
We can make a change today  
Just lift up your voice and say  
We can change  
Change  
We won't follow (no we won't) no false teacher no (no we don't)  
You better go try practice what you preach to be a leader  
You say you pray you say you pray you say God is great  
But then you go and fight and kill and take away what god gave  
You're a murderer  
You can't cover-up what you are 'cause everybody knows  
We can make a change  
We can make a change today  
Just lift up your voice and say  
We can change change change change  
We can make a change  
We can make a change today  
Just lift up your voice and say  
We can change  
Change
