

So Good (feat. Fat Joe)

Tina

I got the fever
And nothing can cool me down either
Don't be a hero
Cause trust me I can be a little trouble Turnin' me on
Come on tell me what's it gonna be now
I know they better not
Come knockin' cause you know
we're gonna be a while Meet me at the exit babe
Tonight we'll make our own party
You're messin' with a certified pro
So don't act like you don't know PRECHORUS
Light weight
Won't work Might break
Might hurt a little bit Don't run
Just take it
Don't break it CHORUS
Make you feel so
Good, good, good, good, good
Make you feel so
Good, good, good, good, good Cause you're touchin' me like you want it You need to get up on it
Make me feel so
Good, good, good, good, good
When I'm bad VERSE 2
Come on and run my body like a relay
Hope you can keep up
The way I'm throwin' it should be illegal
I know you see why
They keep on lookin' at us while we rock
Don't make me wait
Cause I'm burnin' up so baby don't you be late Meet me at the exit babe Tonight we'll make our own party
You're messin' with a certified pro
So don't act like you don't know PRECHORUS
Light weight
Won't work
Might break
Might hurt a little bit Don't run
Just take it
Don't break it CHORUS
Make you feel so

Good, good, good, good, good
Make you feel so
Good, good, good, good, good Cause you're touchin' me like you want it
You need to get up on it
Make me feel so
Good, good, good, good, good
When I'm bad
