

# A Sip of Wine Chased With Cyanide

## A Static Lullaby

Glorify her smile  
Condemn his frownChoke on the phrases left unsaid  
Silver bullets that pierce my ears  
Shadows of demons melt my persona  
Taken from the memory of the darkness lockCan I walk amongst the slave chained to the hopeless and lenched  
from your smile  
Can I float upon your tears swealtering the hate for our non-existanceSend the dove  
Bring her a star  
Throw me a raven  
Spoon out my heartWith the last ounce of dignity  
I will pray  
Scream out  
My mistakes to the heavensSend the dove  
Bring her a star  
Throw me a raven  
Spoon out my..  
Spoon out my heartSpoon out my heart
