

Turn The Light On

Mark Owen

Shake my bones and curl my toes,
Nobody does it better,
Split my head up to the core
And wrap me round your finger
Take a look outside
There is nowhere left to hide
We've been swimming in circles for too long
Let us jump out of this bowl
Hear some music play down the radio
Lay an egg inside us all
Turn the light on,
Turn the light on
Let us climb out of this hole
Turn the light on,
Turn the light on
Walk with me
I'll wash your feet
And find you a shoemaker
Meet new people
Dressed like you and me
But not as clever
Come on dive inside
No one knows if we'll survive
We've been stood on this corner for too long
Let us jump out of this bowl
Hear some music play down the radio
Lay an egg inside us all
Turn the light on,
Turn the light on
Let us climb out of this hole
Turn the light on,
Turn the light on
Climb up the stairs,
Look up, don't be scared
It's just the sound of the city on wide screen
We could be fishes in the deep blue sea
Crystal clear as monogamy
Heliotherapy
Turn the light on
Turn the light on
Turn the light on
Let us jump out of this bowl
Hear some music play down the radio
Lay an egg inside us all
Turn the light on,

Turn the light on
Let us climb out of this hole
Turn the light on,
Turn the light on
