

# Circle

## Iiris

Circle encircles the earth  
Chance and choice break his heart  
    His innocent arm moves  
    To save me and I am spared  
    His beautiful arm is bloody and cut off  
    His heart ripped out to show me he loved me  
        But I would'nt believe him  
He did all that he could, I still would not believe him  
    I left his arms empty and tied  
    Outstretched for me until he died  
    I left his arms empty and tied  
    Outstretched for me until he died  
        No man shows greater love  
Than when a man lays down his life for his beloved  
    I left his arms empty and tied  
    Outstretched for me until he died  
    I left his arms empty and tied  
    Outstretched for me until he died  
        And here I'm alive  
        And I don't have the right  
He gave me the right costing him his life  
    New mercy's in the morning  
    I believe, what if I believe you now?  
        Could it ever change this?  
        Forgive me, don't leave me  
        And please come back to life  
I believe, what if I believe you now?  
    Could it ever change this?  
    Forgive me, don't leave me  
    And please come back to life  
        Come back to my life  
I believe, what if I believe you now?  
    Forgive me, relieve me  
    Please come back life
