All Along

Blessid Union Of Souls

Seems like yesterday but years have passed us by
Precious memories are clear before my eyes
I can hear your voice calling out my name
But I don't know you now, nothing stays the same
And all along, I have wanted you
I pray tonight that you want me, too
All along there was no one else
I've been waiting here all by myself
If you were here with me, we'd ride the ocean tide
To that special place I help for you deep inside
I've kept good company since you've been away
Lonely stayed with me when pride began to fade
All along I have wanted you, I have wanted you
I pray tonight that you want me, too oh
All along there was no one else
I've been waiting here all by myself, all by myself
And I will follow you 'til the end of time
'Til our love is at the end of the line
You rolled out of my life, just like the wind
And left behind a broken heart
All along I have wanted you, I have wanted you
I pray tonight that you want me, too oh
All along there was no one else, oh no
I've been waiting here all by myself
