Pressure

Nadia Ali

I've got pressure, I'm in deep
Seems everybody wants something from me
I was a lover, but now a thief
I'll take your breath away and set you free

So much pressure
So much heat
So much hassle
They want me

So much pressure
So much heat
So much hassle
They want me

Come around, feel the sound
Boy you make my heart pound
Fill me up, bring me down
When I hear your sound

Come around, feel the sound
Boy you make my heart pound
Fill me up, bring me down
When I hear your sound

Come around, feel the sound
Boy you make my heart pound
Fill me up, bring me down
When I hear your sound

Come around, feel the sound
Boy you make my heart pound
Fill me up, bring me down
When I hear your sound

Come around, feel the sound
Boy you make my heart pound
Fill me up, bring me down
When I hear your sound

Come around, feel the sound
Boy you make my heart pound
Fill me up, bring me down
When I hear your sound
