

# One Stop Shop

## Katchafire

You know that I've been ready for you  
Been trippin' on it everyday  
And our world has been feeling empty lately  
I see you everywhere I roam  
Cause all the many things we do together  
My data bank locks it for life  
I wanna feel this way forever  
I wanna make you my wife  
We got the wardrobes for any weather  
It comes guaranteed for life  
And anything you need to do  
Baby its just me and you  
I'm your one stop shop when you're ready to drop  
Any time you need me baby  
Call me when the sun come shine  
We be doing overtime  
I know that I should be right there with you  
To give you what I've yearned to do  
And now the fire only burns for you  
I hope that you can feel it too  
Cause all the many things we do together  
My data bank locks it for life  
I wanna feel this way forever  
Living in your paradise  
We got the wardrobes for any weather  
It comes guaranteed for life  
And anything you need to do  
Baby its just me and you  
I'm your one stop shop when you're ready to drop  
Any time you need me baby  
Call me when the sun come shine  
We be doing overtime
