

# Nails

## Sick of It All

We're the Nails  
Unlike all the rest  
That stick up from the ground  
And they'll never hammer us down  
We're the nails  
Driven into the cross  
Driven in as reminders  
That their self-destructive system can only  
Violate the world.  
Violate the world.  
Violate the world.  
Their self destructive system can only  
Violate the world.  
Violate the world.  
Violate the world.  
But they'll never hammer us down.
