What Temperature Does Air Freeze At?

Action Action

And we'll float to the end
Where the oceans do bend
And we'll fly awayAnd we'll shine on through
Through the summer sky so blue
And we'll drift awayAnd we'll stare at the sun
While the sound
And shapes run up the chimneyWe will drive in the clouds
Trampoline up and down
To our symphonyAnd we'll float to the end
Where the oceans do bend
And we'll fly away and we'll fly awayWe'll shine on through
Through the summer sky so blue
And we'll drift away and we'll drift awayWe wake at ten
And start out lives again
It's another day, it's another dayTogether in a room
Where the wall flowers bloom
It's a marigold wayAnd we'll never go back
And we'll never go back
And we'll never go back
And we'll never go backAnd we'll never go back
And we'll never go back
And we'll never go back
And we'll never go backAnd we'll float to the end
Where the oceans do bend
And we'll fly awayAnd we'll shine on through
Through the summer sky so blue
And we'll drift awayAnd we'll never go back
And we'll never go back
And we'll never go back
And we'll never go backAnd we'll never go back
And we'll never go back
And we'll never go back
And we'll never go backAnd we'll never go back
And we'll never go back
And we'll never go back
And we'll never go backAnd we'll never go back
And we'll never go back
And we'll never go back
And we'll never go backAnd we'll never go back

And we'll never go back
And we'll never go back
And we'll never go backGo back, go back
Go back, go back, go back
