

# Zig

## Speedy Ortiz

How many laps does it take to decide you're back at the start?  
Pace 'er like a machine, anachronistic with scissor kicking  
No good at all  
No goodPush both components at the very same time  
Now tighten the gear  
You need both components at the very same time  
Now tighten the gear hereWhat's wrong with just playing possum, panting cot to co  
And making life a stiller life by metrics?  
It's true that if you go inside you might never come out  
What's wrong with just playing possum, pawing tooth to root?  
And when I'm sad, I burn for more extraction  
It's true that if I go inside I might never come out
